

Mimulus

**The Kern Chapter of the
California Native Plant Society**

invites you to the next meeting and potluck:

Tuesday, June 16, 2009

at the Panorama Vista Preserve

6:00 pm potluck

7:00 tour of our local riparian preserve.

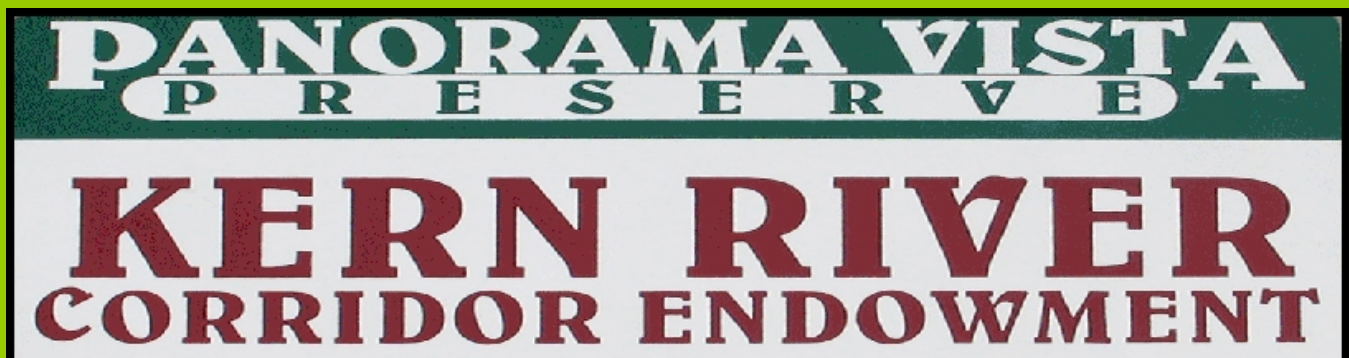

Along with a tour of the restoration work, we will key plants and identify birds and insects.

Bring your favorite dish to share, table service, lawn chair or blanket, and insect repellent is recommended. Reservations are not required.

This meeting is family friendly and appropriate for children aged 8 years old and above.

For directions and a map to the preserve go to the website:

www.panoramavista.org

The California Native Plant Society works to increase the appreciation and conservation of the State's native plants by encouraging their horticultural use, by publishing books, through advocating for protection of native plants and natural habitats and by providing science-based information on the distribution of plants and vegetation types in the state.
